

# RAT PORTAGE MINER

TUESDAY and FRIDAY

VOL. XI NO. 32

RAT PORTAGE, ONT., TUESDAY, MARCH 18, 1902.

PRICE CENTS

## VULCAN IRON CO., WINNIPEG

MANUFACTURERS OF  
**Boilers & Engines, Mill & Elevator Machinery**  
IRON AND BRASS CASTINGS,  
Architectural Iron Work & Bridge Material,  
All Kinds of Machinery Repaired,  
AGENTS FOR  
Steam and Hot Water Radiators  
Sewer and Gasoline Engines  
Heavy Hot Water Boilers  
Governors and Steam Pumps  
Mining and Steam Pumps  
S. S. CUMMINS, - Local Agent,  
FIRE BRICKS and FIRE CLAY.

## Pumping Machinery

ENGINEERS and MINE  
Superintendents  
will find it to their  
interest to refer to  
us when in need of  
anything in the  
Pump line. We make  
Pumps of every des-  
cription and for all  
services.

PUMP CATALOGUES  
and Specifications  
sent upon request.

We manufacture also  
the NORTH GAY  
and GASOLINE EN-  
GINES - cheap, handy,  
safe. Send for  
Booklet.

THE **Northerly Company**  
Limited Toronto  
981 King St. Subway

## MINING MACHINERY

ROCK DRILLS and  
AIR COMPRESSORS  
LIDGERWOOD HOISTING ENGINES and CABLEWAYS

## JAMES COOPER MAN'G CO. LIMITED MONTREAL.

Catalogues and Estimates on application  
STOCK CARRIED IN RAT PORTAGE.

## Stuart-Arbutnot Machinery Co. LTD. WINNIPEG, MAN.

PORTABLE BOILERS  
PORTABLE ENGINES  
PORTABLE PUMPS  
Portable Saw Mills

## Hudsons Bay Co RUSH TO STURGEON LAKE

### New Frilled Muslins..

The correct thing for Bedroom  
Curtains, with Dainty Spot and  
Spray Designs at 300 and 450  
per yard.

## TROOP OIL

### LINIMENT

FOR

Sprains, Strains, Cuts, Wounds, Ulcers,  
Open Sores, Bruises, Stiff Joints, Bites and  
Stings of Insects, Coughs, Colds, Contracted  
Cords, Rheumatism, Neuralgia, Bronchitis,  
Grip, Sore Throat, Quinsy, Whooping  
Cough and all Painful Swellings.

A LARGE BOTTLE 35c.

Prospectors and Mining Men  
are Hastening to the  
New Camp.

The early thaw is causing a rush in-  
to the Sturgeon Lake country by those  
who have to haul freight in from the  
track, says the Industrial Review. The  
anticipation that the ice will be solid  
until the middle of April is liable to be  
falsified.

Supplies are going in for the Stur-  
geon Lake Mining Co., of St. Cathar-  
ines, whose mine is the first producer  
on the lake, and which gave very sat-  
isfactory results while the mill was  
running. A shuffie has taken place in  
the company's personnel and work will  
be continued this spring.

The Anglo Canadian Gold Estates  
will continue exploratory work on  
their property, and will probably have  
hoists and pumps on the ground before  
the close of ice hauling.

The Anthony, J. S. Steele's mine, is  
another property that will have a lot  
of work done upon it this summer. The  
management have about decided not  
to put up a mill, but to find out first  
all that can be learned about the ore  
body. The shaft which is being sunk  
by contract is, according to latest re-  
ports, in even better ore than was  
found on the surface.

At the Shores' lower camp, the Unit-  
ed States Gold Mining Co. are now in  
shape to make some impression. Two  
hoists are already set up at the two  
shafts, which are both about seventy  
feet deep, and lie a quarter of a mile  
apart on the same vein. In one shaft  
the vein is four feet wide at the bottom,  
and in the other 6 and 7 feet in width,  
and a certain amount of drifting has  
been done at the 70 foot level.

The ore is rich, not, perhaps, so plen-  
tifully sprinkled with visible gold as  
that found in some of the Sturgeon  
Lake prospects, but it is dark and well  
mineralized, pans freely, and in those  
places where visible gold is found, the  
minerals in a very fine state of dis-  
solution.

Dr. Gilman, an eminent Chicago  
physician, stated that in twenty-five  
years' experience he had never com-  
e across more promising ore. The values  
are about one ounce per ton.  
The ore will be used to develop  
the mine, and the fact that there will  
be good gold bricks turned out  
from the Sturgeon Lake country.

there is a lot of pay ore on the dump,  
and the miners will be able to keep the  
little mill busy.

### MACHINERY FOR GOLDEN HORN.

Five teams of horses have been en-  
gaged during the last few days haul-  
ing machinery out to the Golden Horn  
mine under the supervision of Mana-  
ger Rideout. The machinery com-  
prises a 50 horse-power tubular return  
boiler, one 12x18 Ingersoll compressor,  
and two No. 3 drilling machines with  
column bars and hose complete. Sev-  
eral loads of fire-bricks and other ma-  
terial necessary for the accommoda-  
tion of the new plant has also been  
hailed to the mine. The Golden Horn  
company are to be congratulated as  
much upon having such a live man-  
ager as Mr. Rideout, as upon their ex-  
ceptionally promising gold mine.

### LIVELY LUMBER TRADE.

Winnipeg Free Press: Mr. T. D.  
Robinson, of Main street, who deals  
extensively in lumber, said yesterday  
that the coming season would be a  
good one for the lumber trade. The  
prices and the supply would likely be  
much the same as used for the first of  
the season, but as building promised  
to be far more brisk than other years  
the demand for lumber would be great-  
er and consequently there was a risk  
that prices would increase toward the  
end of the season. There were many  
proposed buildings, Mr. Robinson ad-  
ded, on which the contractors were fig-  
uring, and until these contracts were  
definitely decided, it was impossible  
to say just how much lumber would  
be required in the city. For instance,  
if the big building which Lord Strath-  
cona is to build on the corner of Main  
and Broadway goes or it will use nearly  
one million feet of lumber alone.

### McEWEN THE HYPNOTIST.

The world renowned McEwen the  
famous Scottish hypnotist who creat-  
ed such a sensation here on his last  
visit is billed to appear again at the  
Hillside Opera House for four nights  
commencing to-morrow, Wednesday.  
Mr. McEwen has travelling with him  
this season, Mr. E. N. Smith the corner  
virtuoso who will give several selections  
at intervals during the performances.  
The prices have been put down to  
rock bottom, so that all may avail  
themselves of the opportunity of see-  
ing McEwen in his marvellous tricks,  
and hearing the corner virtuoso. Prices  
will be, reserved seats 35c and 25c,  
and 15c and 10c.

however, I was obliged to value them  
at current prices.

I have nothing to say as to the valua-  
tion and report of Mr. Blosson of New  
York, except that no action has ever  
been taken upon it, and it has never  
been considered seriously. The works  
were taken over by the corporation,  
and as a result of the first year's  
operation, there was a material sur-  
plus after paying interest, sinking  
fund and operating expenses. The  
sinking fund as you are aware rep-  
resents depreciation.

I enclose you herewith a statement  
showing the receipts and expenditure,  
on the last page of which statement  
you will find that there was a balance  
for the year ending 30th September  
1901 of over \$1,000.

I would consider it a favor if you  
would send me a copy of your paper,  
containing reference to this communi-  
cation and oblige.

Very truly yours,

WILLIS CHAPMAN

M. Can. Soc. C. E.

### ST. PATRICK'S DAY PARADE.

The Catholic Irishmen of Rat Port-  
age assembled at the McVeigh-Walsh  
hall yesterday morning and marched  
in procession from there to Notre  
Dame church where high mass was  
celebrated in honor of Patrick, the pa-  
tronic saint of Ireland. Rev. Father  
Cahill preached a most able historical  
sermon, treating on the life and times  
of the Irish apostle which was listened  
to with rapt attention by the congrega-  
tion.

Westerfield Mining Investment Com-  
pany's Metallurgical Works.

In the Sharpe block, Second street,  
we have opened an office for assaying  
and analysing. The works are under  
the management of Mr. Theo. Bush-  
enbach, M.E., and metallurgical chem-  
ist, who is specially prepared to make  
qualitative and quantitative investiga-  
tions for gold, silver, platinum, tin,  
copper, iron, nickel, cobalt, zinc,  
or any other elements required. As-  
say tests of one up to 1,000 lbs. will be ex-  
ecuted and reports given as to ad-  
aptability of sample and extraction, and  
amalgamation and cyanide treatment.  
Gold assays on lots of six or more will  
be made at the price of 50 cents.

### TROUBLES OF A PRO-BOER.

Colborne, Ont., March 15. Henry L.  
McNair, formerly pastor of St. Albans,  
Vt. church, but lately in charge of  
the

## DEFEAT OF THE VICTORIES

Montreal Wins the Last  
Game By a Score of  
Two to One.

An excited crowd of hockey enthu-  
siasts assembled at the Russell House  
last night to hear the bulletin of the  
Stanley Cup game kindly furnished by  
the proprietor, read out during the  
progress of the match. The telegrams  
were being sent to Montreal, and the  
correspondent who was recording the  
game, was quite a satirist, and a firm  
believer in the Montreals. One of  
his despatches read, "Half time—been  
good clean hockey so far—only three  
men penalized—Montreal two goals—  
Victory none."

After half time the Victories on the  
ice together with the Montreals' candi-  
dates for the emergency ward of the  
hospital, and it they failed in the har-  
per, they certainly could not in the  
latter, as they managed to tie one  
Montrealer in such a manner that he  
had to be carried on the ice. Another  
got a slash over the eye which opened  
a long gash in his forehead and there  
was another signal of sending to the  
dispensary. The victory was allowed  
the goalkeepers with a goal for them,  
and during the second half of the  
game, having two goals to their credit,  
they played a close defence, and only  
allowed the desperado to make one  
score one goal. This was the state of  
the game at the expiration of the  
first half in favor of the Victories. It  
gives the victors the Stanley Cup  
which is now their possession. They  
proved themselves the better team.

There is no stopping at beating and  
gloating of countless times in Rat  
Portage over the defeat of the Victo-  
ries. They were paid up with  
pride which is a good position to be  
in while playing a championship game.  
They were escorted and vain glories,  
and more the number of their town  
on the forepicks to the rear of the  
hockey netting. They thought  
Winnipeg the best of the spirit and  
implied in that word that the world  
must go to the victors. The residents  
of the city, however, that they prove  
high born the fact that the mounted  
of Montreal.

We gave seven of our children a  
play from school that they might go  
and knock some sense into the Victo-  
ries, but they did not appreciate the kind-  
ness, and they are coming and then  
back home, just when the children

**AND THOSE TROUBLED WITH**  
 Palpitation, Throbbing or Irregular  
 Beating of the Heart, Dizziness,

himself in Adams's circle. One particular Methodist man, the founding father of his district, whom Adams regarded as a paragon of piety, told the Barren course disapproved him. He'd turn his back and further mind the boys. They'd decided Bartholomew of the spirit then and were, but not so the old, poor her. He'd, turn and quailed, mounted, and and she came to

Another short man drove up to the first of them for a moment, turned on his side.

How tall he stood that he and the first man were on a level and close to the floor for the first time. But a change was made in the line. However, they had a brief moment standing on the floor stage, and the old man stood only on the first two steps, crossed another stage in his mouth, and left.

St. Rude's Tower.  
St. Rude's tower, north tower of St.  
Andrew's, is a relic of the thirteenth  
century. St. Rude's was the first  
ruined Scottish tower in the coun-  
try of which he is the patron saint.  
A legend says that it was founded  
by him, or rather by his brother St.  
Andrew from the same materials.  
Archaeologists have been unable to  
ascertain the date of the tower.

How the Ten Plant Stuffed.

On Sunday afternoon when he awoke, he was so sore that he cut off his hand and threw it on the ground. As the pain grew, he cried. It is very fortunate that the story stops here, because it would be interesting to know what the only thought of a patient without eyelids and whether it would be possible for them to see again.
